# A shift just happened

# Webinars I gave on AI over the years

## Experiment tracking with

mlflow™

Marie-Hélène Burle

November 25, 2025

## AI-powered programming with

GitHub Copilot

Marie-Hélène Burle

January 23, 2024

## Version control for data science & machine learning with DVC

DVC

Marie-Hélène Burle

December 12, 2023

## Super-resolution with PyTorch

Marie-Hélène Burle

November 24, 2021

## fastai

A deep learning library for fast implementation & research

Marie-Hélène Burle

training@westgrid.ca

April 14, 2021

## Machine learning in julia with

flux

Marie-Hélène Burle

training@westgrid.ca

*May 13, 2020*

## A map of current ML frameworks

Marie-Hélène Burle

October 3, 2023

SFU Simon Fraser University

Digital Research Alliance of Canada

They were about how to ***use*** AI tools

Here is my last webinar

# Hardening your system in the age of agents

Marie-Hélène Burle

October 13, 2026

Updates

Backups

Version control

Password managers

Sensitive data

***Sandboxes***

It was about how to
***protect against*** AI tools

*I would like to advocate for a committee on AI use inside our infrastructure*

# How is this relevant to training?

**AWARENESS**

Lack of risk awareness in users

**URGENCY**

We need to train people urgently not to do crazy things

**GOVERNANCE**

We need to discuss rules at the organization level

# How is this relevant to training?
